

QUALITY & ENVIRONMENTAL POLICY STATEMENTS OF COMPANY ELTI D.O.O.

The Director of Company ELTI d.o.o. Denis Šaruga has determined and announced company policy with its goals and principles. He has ensured that all employees understand the quality and environmental policies and that all policies are performed and maintained at all levels of the organization. These principles are documented in the Quality Manual (PK) and Environmental Management Manual (PRO) in accordance with standards SIST ISO 9001 and SIST ISO 14001.

Our products are manufactured in accordance with international standards IEC, ARD and recommendations ITU-R (CCIR), which apply to these kinds of products. We try to accommodate the design and technical parameters to the needs and wishes of our clients. When manufacturing and using our products, we wish to minimize the effects on the environment to the lowest level possible.

We follow and implement all legal and business requirements in the field of environmental management on the level of EU, Slovenia and exporting countries, and the requirements are integrated in our working processes. In the field of environmental management we always give priority to preventive actions and pollution prevention.

The quality manual is our umbrella document for managing quality systems and environmental management. In this way we ensure the quality throughout all levels of our business processes: research, purchasing, development, sale, assembling and servicing.

In company ELTI we are open to all information and initiatives from locals and other interested public. We examine received information and adequately respond to the communication.

Sustainable development is a part of the company's business process. The principles of sustainable development are implemented to a great extent into our operation, products, service and contents.

VALUES IN THE COMPANY ELTI

We value the quality of external and internal products and services, and ensuring quality is our priority,

- We help making choices to our buyers and other customers; the orders are fulfilled accurately and promptly,
- The workers are adequately rewarded for their work, for which they are also held responsible,
- Employees feel free to express propositions and remarks,
- Each co-worker is taken into consideration as an individual,
- We treat our co-workers the same way we treat our clients, which is directly and personally,
- We minimize our costs constantly,
- Business operation must bring great profit,
- We hold ourselves responsible for success and failure of the company.

BASIC QUALITY PRINCIPLES

The quality and sustainable development are the highest values of all employees in the company Elti d.o.o.

Our products must satisfy and exceed the demands of our customers.

We constantly upgrade, change and improve the system of quality control and environmental management, and therefore ensure ourselves a stable and lasting future.

Additional education and high motivation of our employees are preliminary conditions for achieving higher levels of quality.

G. Radgona, 15.01.2015
